

## THE WORLD OF SPORT.

A Comparison of the Work of the  
Kenton and Wheeling.

## BOTH IN BATTING AND FIELDING

The Home Team led the Visitors—The Great Work of Kerr, Kane and Davis at the Bat—Wheeling Plays Canton this Afternoon—McDoughall Leaves for Wheeling—Saturday's Bowling Games—Probable Winners at Hawthorne.

The series between Wheeling and Kenton, of the Inter-state league, showed the great superiority of the home team in batting and in fielding, the locals were just a little ahead of the Ohio boys—to be particular, Wheeling had the advantage by one one-thousandth of one per cent. Anderson and Davis form a great fielding battery; neither man yet has made an error. Keefe at first is all right, with a fielding average of .960. Regan at third has the lowest fielding average, .625, but nearly every error he made was excusable, being due to the bad condition of the grounds.

In batting, two of the outfielders, Kerr and Kane, are tied for first place, with averages of .563. Davis is well up, with .500, and Brown's .413 is next, followed by Crotty, Anderson, White, Regan, Keefe and Jones in the order named. The following table is compiled for the INTELLIGENCER from the official scores:

To-Day's Games—Canton at Wheeling, Findlay at Columbus, Kenton at Steubenville, Twin Cities at Mansfield.

The home team made it three straight victories with the Kentons, Saturday afternoon. The game was marked by rather poor fielding on both sides and free hitting. Anderson was not the enigma to the visitors that he was on the opening day, when they got but four hits in six innings. In the sixth inning Robinson hit terrifically and the ball soared higher and higher and went over the thirty foot left field fence for a home run, the first made on the Wheeling grounds this season. The next man up made a two bagger and errors and a base on balls materialized into three runs.

In the seventh Anderson was taken out and Brodie substituted, but he only pitched three balls. The third was pronounced a "ball" by Umpire McNierney and this angered Brodie, who started to abuse the umpire. The latter acted promptly, ordering Brodie out of the game. White didn't want to do this, and was given a minute to consider. The fifth second had passed before he motioned Brodie to retire and ordered Anderson back in the box.

Wheeling did not make so many hits as Kenton, but Gauding's seven and Dubbs' five bases on balls did the work. The score:

It was rumored among sporting circles last night that Akron would soon drop

**ECZEMA**

From early childhood until I was grown up my family spent a fortune trying to cure me of this disease. I visited Hot Springs and was treated by the best medical men, but was not benefited. When all things had failed I determined to try S.S.S. and in four months was entirely cured. The terrible eczema was gone, not a sign of it left. My general health built up, and I have never had any return of the disease. I have often recommended S.S.S. and know a failure to cure.

into Kenton's place in the league. To give color to the rumor, it was ascertained that a Lima gentleman was in the city in consultation with President Ziegler in reference to the change. President Ziegler was seen, but refused either to confirm or deny the report.—Columbus Journal.

**Base Ball Notes.**  
Brodie, who was recently released by Twin Cities and pitched part of a game for Wheeling, has signed with Kenton and leaves to-day for Steubenville, where he will join the team.

No town without a daily newspaper or at least a telephone, has any business to be in a base ball league. We move to drop the Twin Cities from the league and substitute Ashland or Loudonville or some town in which it will be possible to find someone who has enough gumption to score and report a game.—Mansfield News.

The INTELLIGENCER will risk the prediction that the Twins will not be the first to go to the rocks should the Inter-state sea become tempestuous.

The three or four sore heads who led in the unbecoming trade of abuse heaped on White and Prince during Saturday's game will be severely dealt with if such hoodlumism is repeated. They are spotted.

Mr. Charles E. Van Kleeck, of the "Busy Bee" lunch rooms, has had the Inter-state schedule printed for ready reference. They can be secured at the "Busy Bee."

The Canton team are at the Stamm. Manager Goble has four pitchers, but says he will only carry three through the season. The Cantons are a team of young bloods with one or two exceptions. "Billy" Delaney, the second baseman, is an old Tri-State favorite.

McDoughall, the twirler who was signed for the St. Louis Browns early in the spring, has consented to come to Wheeling, and a telegram from "Buck" is to the effect that Mac will leave the Mound City for this city to-night. With McDoughall, Anderson, Smith and Jones the home team is well fortified in the box. White says he will not use Jones on trips; he will be pitched only on the island grounds.

## Amateur Base Ball.

The Daugherty Stars walloped the Fulton club on Saturday by a score of 27 to 16.

Twelve to five was the score in the game between the Martin's Ferry Juniors and the "Farmers" on Saturday. The former appeared in their new uniforms.

The score between the Scheehle and Etnaville ball clubs on Saturday was 10 to 13 in favor of the former. Frank Stewart pitched for the Scheehles and the four twirlers for Etnaville were Stephen Lewis, Thomas Williams, Chas. Henry and Ed. Brown. It is said that Brown will go with Kenton to-day at first base. The Scheehles will play the Martin's Ferry Juniors on Decoration Day.

## CALLAHER ARRIVES

And is in the Pink of Condition for His Go With Parry.

"Jimmy" Callaher, the Pittsburgh pugilist, who is matched to box John Parry, the Homestead man, twenty-five rounds before the Metropolitan club at its Fulton arena to-morrow evening, arrived in the city last evening, accompanied by his backer, William Lacey, of Pittsburgh, and trainers, and took up his quarters near the club house in Fulton. Callaher is in excellent condition, and possesses great confidence in his ability to best Parry. The latter is doing the finish work to his training out at Seibert's Garden, and will be in better condition than when he went down before "Jerry" Marshall early in the spring. In his coming contest he will have the inestimable advantage of a first class man in his corner, Johnny Van Heest, of Milwaukee, having consented to act as his second to-morrow evening.

The first bout to-morrow evening will be between "Jerry" Marshall the colored Australian champion and "Billy" Dooley, of San Francisco, four rounds. Then will come the six rounder between Harry Nikirk, of Pittsburgh, and Charles Och, of Wheeling, six rounds to a decision. The third and principal event will be the Callaher-Parry go. The first bout will be called at 9 o'clock and Manager Alexander promises that there will be none of the distressing delays that have before occurred at local pugilistic affairs. A special train over the Baltimore & Ohio from Pittsburgh will bring a large crowd from that place.

## A VIGILANCE COMMITTEE.

An Island Resident's Ideas of What that and Other Wards Need.

To the Editor of the Intelligencer.

SIR:—The residents of the island were called to meet on last Friday evening to discuss the granting of the license to sell beer at the new base ball grounds. The meeting was held and the subject was discussed, but, as far as reported, the meeting ended there; no action was taken. Perhaps it was beyond the province of the meeting to take any. In western mining districts many a prospector having "staked out his claim" and having gone about other affairs, finds later that somebody has, during his absence, "jumped" his claim and proposes to stay there in spite of the original claimant. An experience or two of this kind teaches him that eternal vigilance is the price of ownership. He must be on the ground and awake when the intruder comes, armed and ready to maintain his claim.

Now "eternal vigilance" is the price of freedom from the encroachments of greed, of vice, of Sunday desecration; in short, it is the price of a community's welfare. What the island needs, what every ward in the city ought to have, is a committee of citizens, alive to the best interests of the ward, alert to discern the first stealthy approaches of demoralizing influences, quick to arouse public sentiment and prompt to act, so that whatever wrongs exist may be resisted, whatever dangers threaten may be averted before it is too late.

The island is a community of homes; it is the brightest and purest spot within the city limits. Its quiet homes, its tree-lined streets, its freedom from the saloon and the beer-garden, make it an oasis to which its people turn with pleasure and with pride. If this character is to be preserved it is high time for public sentiment to crystallize into definite form. Let the citizens come together, choose a committee of representative men who will be true to the best interests of the people, alert and vigilant. Let it be chosen from year to year. Let it be charged with protecting the moral tone of the community, the maintenance of the laws, the encouragement of improvements and the beautifying of the island.

Whatever this committee might be named, it should be in fact a "vigilance committee." This name may suggest to us scenes in mining camps, where horse thieves and road agents meet with summary punishment, but the word expresses exactly the spirit that should pervade every community, a spirit of watchfulness and watchfulness against danger.

Haps and Mishaps in the Thriving City Across the River.

Rev. Dr. Wilbur F. Crafts, president of the National Bureau of Reform, addressed a large audience in the Martin's Ferry Presbyterian church yesterday afternoon, the meeting being under the auspices of the Y. M. C. A. His discourse lasted one hour, and was an excellent one. He spoke of the reform movement in New York, Pittsburgh and Chicago; urged the people to use the mail box more freely to reach mayors, governors, congressmen and others, calling this an annex to the ballot box, showing how much good a short letter often does.

The lecture of Rev. A. B. Riker in the Elysian theatre yesterday afternoon to "men only" attracted a great audience. The discourse was a temperance talk, with interesting variations characteristic of Dr. Riker's lectures. It was enjoyed by all who heard him.

## Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.
